Seedstand Setup

Thank you for acquiring a Richters Seed Display. We have enclosed the following simple instructions for easy assembly. If you have any questions, call us at 1-800-668-HERB.

1. Your seedstand package consists of three components. The base of the stand, the seed compartment and the banner.

2. Unfold the base component to its full height. Gently press out the bottom section, so that it forms the base of the stand.

3. The upper section of the stand will have two "doors" that are held in place by a flap that is clamped in place.

4. The flap has a tab on both sides and this should be inserted into the base of the stand as shown at the left. You can use the hollow space inside the stand for storage of extra seedpacks.

Seedstand Setup *(continued)*

5. Place your pre-filled seed compartment against the stand so that it rests on the built-in ledge in the base of the stand. There is a velco patch on the back of the seed compartment that keeps the seeds firmly attached to the stand.

6. Attach the banner section to the top of the stand by inserting the tabs into the seed compartment as shown.

You now have a beautiful, Richters seed display!
